TITLE : COFFEE SET

ABSTRACT : PURPOSE: To enable anyone to make coffee readily by arranging a bag for holding coffee powder and sugar, a container holding milk and a dripper which is placed on a cup to support a filter, a filter in which the coffee powder is put and a housing device to house them.

CONSTITUTION: This apparatus is provided with a bag 1 holding a coffee powder, a stick type bag 2 holding sugar, a cup-shaped container 3 holding milk, a dripper 4 which is placed on a cup to support a filter paper 5 and the filter paper 5 into which the coffee powder is put. A housing box 10 is set to house those as mentioned above as housing device. Here, a base 41 is placed on a proper cup, a body 42 is set on the base 41 and the filter paper 5 is set on the body 42. The coffee powder of the coffee powder bag 1 is put by a specified amount per cup into the filter paper and hot water is poured into the filter paper 5. Thereafter, the milk and sugar are put according to the preference of a user. This enables anyone to make coffee readily only when a cup and hot water are available.
